

Website redesign

Thursday, August 16, 2018

12:24 PM

multi-page ; dynamically resized content

- ① projects - 5-6 main themes* (molecular data science, complex reaction networks, biomolecular)
 - descriptions
 - people
 - publications - images
- ② blog - Josh
 - Sarah
 - wes
- ③ publications - with annotations (invited, review)
- ④ news - conferences
 - awards
 - grad students & post docs (incoming + exiting)
 - publications
- ⑤ members - *current (link to personal web / linkedin / twitter)
 - alumni (current job; link to website / linkedin)
- ⑥ introduction - group photo
 - intro description
 - vacancies

* energy - wes

reaction networks

molecular data science

interfacial nanoscience

* professional headshots.
